Summary

A very simple model of a pill box for your keychain. With a smiley on the inside :) There's a bigger version too :)

It's a very straightforward model. There's also a bigger version on my profile:)

The lid screws on the outside to prevent pills from getting crushed.

A big lid allows it to be more easily opened.

With a little smiley on the inside, just because :)

I might upload different iterations in the future :)

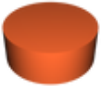

Printed these with 0.1 resolution 20% infill, both were printed with the flat side down.

It's 24 mm wide (excl. loop for chain) and 16 mm high
