Tired of your backpack straps dangling and getting caught on things? These backpack strap clips are designed to keep your straps neat and tidy while being easy to adjust. With a strong locking mechanism, these clips won't pop open on their own, offering both functionality and style.

This set includes four variations:

1. Clip 20mm length with 2.5mm gap
2. Clip 25mm length with 2mm gap
3. Clip 25mm length with 4mm gap
4. Clip 25mm length with 2mm gap and a hook

These clips are designed to fit standard backpack straps. However, if your backpack has non-standard strap widths or thicknesses, minor modifications to the models might be necessary.
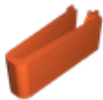

Print Settings:

- Layer height: 0.2mm
- Wall loops: 2
- Infill: 15%
- Supports: Only the clip with the hook requires support; the others can be printed without it.

These clips were printed in PLA, though PETG might be a better choice due to its enhanced strength.
